

Savio Srl designs and manufactures fans, blowers, filters, wind tunnels and general equipments for gas and biogas transportation, pneumatic conveying system and air treatments since 1945.

Our Engineering dept is able to cooperate with our customers' technical dept in order to satisfy specific requirements, study and design customized solution.

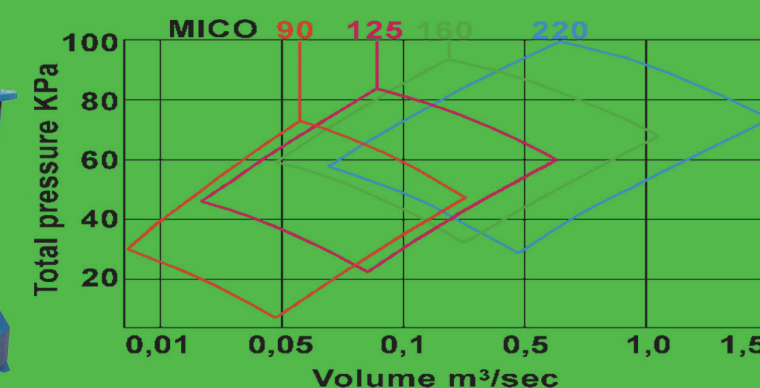

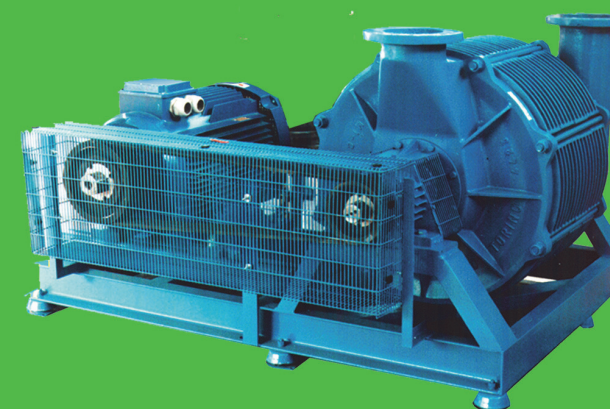

We manufacture in ITALY following the highest European quality standards helped by specific machines and tools for cutting, turning, bending, punching, milling, etc... all type of steels and aluminum.

We test 100% of our fans and blowers through specific balancing machines, pressure, vibration and temperature gauges.

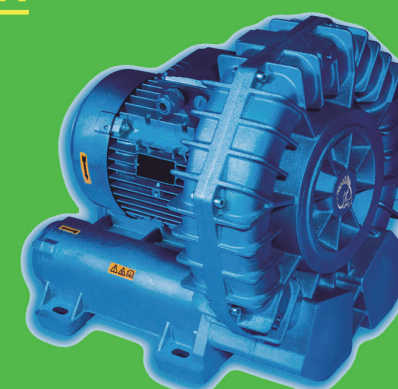

MICO

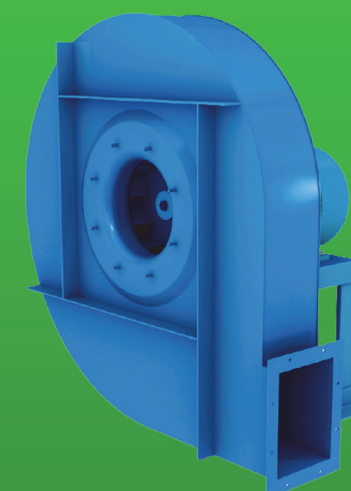

**MULTISTAGE BLOWERS FOR
AIR, GAS AND BIOGAS
PRESSURE UP TO 1 bar**

LCX

**SIDE CHANNEL BLOWERS FOR
AIR, GAS AND BIOGAS
PRESSURE UP TO 600 mbar**

SP - SR

**FAN BLOWERS FOR
AIR, GAS AND BIOGAS
PRESSURE UP TO 250 mbar**
